# Sonocent Link - **Quick Start Guide**

Sonocent Link is our note-taking companion app for Sonocent Audio Notetaker.

With Sonocent Link, you can:

- record in high quality
- highlight important audio with customisable colour keys and add photos right alongside
- listen back to your recording in full and edit your project
- quickly transfer the file to our Sonocent Audio Notetaker software by wifi, email, Dropbox™, Google Drive, OneDrive and AirDrop
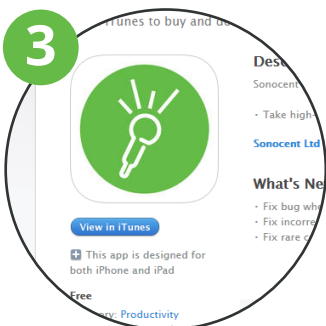

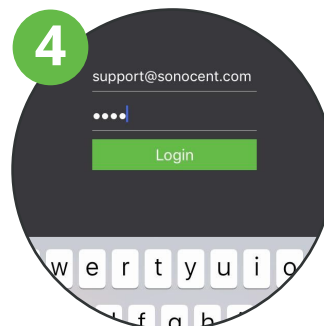

How to download Sonocent Link and log in

1 **Download** the Audio Notetaker software to your computer and activate using your unique licence key.

2 Five days after Audio Notetaker is activated the software will prompt you to **register**.

3 Search for '**Sonocent Link**' on Google's Play Store or Apple's App Store. Download the app to the phone or tablet you will use to take recordings

4 To log in to Sonocent Link, enter the email address you used when registering Audio Notetaker into the **Username** field and the last four digits of your Audio Notetaker licence key into the **Password** field

If you have any questions, contact David and Ida from our technical support team on **support@sonocent.com**, or hit us up via **@sonocent** on Facebook or Twitter
